NOTES

1) *For the HSGQE and Benchmark assessments, results are not published when less than 5 students are tested at a grade level or two or fewer students are reported in an individual cell. For the CAT6, results will be reported if at least three cells out of four contain values. Asterisks are used for instances where only two cells have values and fewer than three students are reported in any of those cells.
2) N/A indicates that a school did not test students in that particular grade for that administration.
3) Percentages reported are based on the total number of students tested, not the number of students enrolled in the grade.
4) To provide more information a new category has been added, titled All Grades. Values in this row are the aggregated results from all grade levels tested for that school. This category allows the department to publish results for small schools without releasing personally identifiable information.
